

About the Optimum 150 External Platform Lift

The Optimum 150 is the ultimate space saving platform lift enclosure, situated externally with the entrances in the internal wall. We will provide you with a fully weatherproofed, secure and insulated external structure fitted with the Optimum 100 platform lift inside. We construct for you a substantial steel structure that is anchored to the wall and finished in insulated Microrib Kingspan to a colour of your choice. Generally all we ask is that your builder provides the entrance apertures and the concrete plinth.

Standard Features

- Kingspan Microrib Finish
- Colour Choice
- Weatherproof and insulated
- 5 Year structure guarantee
- Includes gutters and down pipes
- Sealed to the building
- Optimum 100 Platform Lift
